PATENT MEDICINES or SECRET REMEDIES

When you buy a Patent Medicine you pay for the enormous cost of advertising it, and for the medicine Stamp Duty, and for the expensive carton and make-up. We can sell you the very same medicine, made up by trained chemists to just the same analysis, but at very much less price.

We cannot sell these medicines to you by their registered trade names. But what difference does it make to you, who want to do yourself good by the medicine, whether you buy it under a fancy name or whether you buy medicine made up in exactly the same way without that name. Nor do we want to use anyone else's Trade Name. We want to sell medicines which will do you good and to sell them at a reasonable price. We don't want to sell you an expensive Trade Name. And you want to pay for your medicine only and nothing else.

FAMOUS MEDICINE (BRAND) PRESCRIPTIONS

are sold by us at much less than the usual prices of the advertised famous patent medicines ; they are made by our trained chemists to the same analysis. Why pay more for a mere name?

We pay back your money if you are not satisfied.

Compare the prices in this list. Then if you want our Famous Medicine (Brand) Prescriptions order them BY NUMBER. If you want one of the more expensive advertised famous remedies, then we will sell it to you if you order it by name.
